School @ Gymnasium "Sūduva" | 2011
Hometown school where i got my Secondary Education

PROFILE

Short introduction

Hey! My name is Aidas and I am a learning front-end developer. I am very passionate about programming and solving problems that always makes me learn something new and interesting. I love to keep my code structured, tidy and always consider new methods that can make it better. Started learning Front-end developement independently and after that I joined CodeAcademy course which I have recently finished. Now I am looking for new challenges and work experience!
